
Sean Roberts

Sean Roberts

Based in London, Sean Roberts is a member of the Technology Sector. He focuses on assignments within the areas of software and IT services for B2B enterprise clients.

Previous Experience

Prior to joining Russell Reynolds Associates, Sean spent 10 years at Accenture, most recently as a Market Maker in the Resources Market Unit. In that role, he was responsible for qualifying, developing and closing complex business process outsourcing, infrastructure outsourcing and application outsourcing as well as technology and business consulting deals in the utilities, oil, gas, chemicals and mining industries. Earlier in his career with Accenture, Sean was a Technology and Business Consulting Analyst and gained experience through a number of roles, including leading the SAP security design and the 'Implementation Manager Network' on a Shared Serviced implementation for a major travel company, and conducting a procurement opportunity assessment for a UK water company.

Education

Sean received his B.A. in politics, philosophy and economics from St. Anne's College, Oxford University.
